Case Scenario: -

A 68-year-old female patient with atrial fibrillation developed severe gastrointestinal bleeding 3 weeks after starting rivaroxaban (a direct oral anticoagulant) and was hospitalized. The patient was taking Metformin, lisinopril concomitantly. The adverse event was fed for gastroenterologist for the drug manufacturer, triggering an ICSR submission to regulatory authorities.

Our Mission

At Sparkling ClinTech CareerPath, our mission is to deliver world-class pharmacovigilance education that is both practical and purpose-driven. We are committed to producing industry-ready professionals through rigorous hands-on training and real-time case-based learning. Our programs are designed to align with current regulatory standards and evolving global safety practices. We strive to build a learning environment that fosters ethical values, critical thinking, and continuous professional development. Collaborating with industry leaders and academic experts, we ensure our curriculum remains relevant and impactful. Our mission is to shape confident, competent, and compassionate PV professionals who champion patient safety and regulatory excellence.

Why Choose Sparkling Clinitech for Pharmacovigilance Training?

Specialized, Industry-Focused Programs

Each course is tailored to meet current industry demands—whether it's regulatory affairs, drug safety, or clinical research, our country-wise programs are tailored for...

Hands-On Learning with Real-World Tools

We emphasize practical training using case studies, ICSR reports, and software used in actual pharmacovigilance workflows, making you job-ready from day one.

Placement-Driven Training Approach

Resume building to mock interviews, focus is on helping you succeed — not just learn. Many of our learners secure roles within weeks of complete the course.

Expert Mentors with Industry Experience

Learn from professionals who've worked in top pharmaceutical companies and bring our world insights, mentorship, and updated knowledge to every session.

From Learning to Earning – Student Testimonials

I would like to extend my sincere gratitude to Ms. Mayuri for dedicating her valuable time and effort to conducting the Argus training as well as pharmacovigilance project sessions. It was an incredibly rewarding experience, and her approach made a significant impact on my learning journey. Her ability to explain concepts with clarity and efficiency ensured that even those without prior industry knowledge could grasp the essentials and gain deeper insights. The sessions were thoughtfully structured—highly practical rather than purely theoretical—which helped us visualize and familiarize ourselves with the system environment. Mayuri's flexibility, patience, and consistent willingness to address our questions made the training both accessible and empowering. She presented each topic with precision and care, ensuring every participant truly understood and absorbed the key information. What stands out most is her unwavering passion and commitment. She not only imparts knowledge but actively motivates and guides us toward excellence. Her approachability and adaptability in tailoring sessions to individual needs is admirable. Training under Sparkling CliniTech CareerPath Pvt. Ltd., and especially under Mayuri's guidance, has been an enriching milestone in my professional development. I'm excited that this journey with Mayuri will continue, and I wish her all the best in inspiring many more learners. Thank you, Mayuri, for being an exceptional trainer and mentor.

A Aiswarya Vaisak

I had attended basics of PV from Sparkling. It was a very knowledgeable session and the trainer delivered it very effectively, not being from pharma background still could understand it very nicely. There were many examples and quizzes which helped in clearing the doubts. Thank you Sparkling.

A Namita Tripathi (Anshu Trip)

I wanted to take a moment to sincerely thank you for the wonderful classes over the past month. Your teaching style made a big difference in my understanding of the database. Each concept was explained thoroughly and with great patience, which really helped me grasp even the more challenging topics with ease. I truly appreciate the effort you put into making the lessons clear, structured, and engaging and informative . Your dedication and support have made this learning experience both enjoyable and enriching. Thank you once again for being such an inspiring teacher.

Jyotsna S

I am truly grateful to be a part of Sparkling CliniTech CareerPath Pvt. Ltd. This experience has not only enhanced my knowledge but also allowed me to contribute meaningfully to a field that deeply impacts public health and patient safety. Being involved in such a dedicated and innovative environment has been very much inspiring." Mayuri is well-organized, beginning with foundational concepts and gradually advancing toward more complex topics, Key definitions, workflow models are clearly explained, her involvement brought clarity, commitment, and creativity to the project. Her ability to research, collaborate, and communicate complex health information in an understandable manner significantly enhanced the project's reach and quality. she is very supportive and has great patients level, she explains each and everything until we are confident in that particular concept. thank you.

Manasa Manepalli

"Mayuri mam made a real difference in my understanding of pharmacovigilance , I feel much more confident now, Her class has been one of the most rewarding experiences I've had . Thanks to her for challenging us (students) to think critically"

Keerthika Senthur

"Mayuri mam was an excellent trainer who taught us about Basics of pharmacovigilance and various other concepts of PV like ADR reporting forms, ICH guidelines, Clinevo data base, Narrative writing etc"

Mounika Gannamanthi

"It was a pleasure getting mentored by Mayuri maam, who is very great and a friendly tutor. The way she explained topics was very clear, concise and engaging. I appreciate her quizes and assignments, it helped me learn much more effectively"

Raghini L

I highly recommend Mrs. Mayuri for her exceptional pharmacovigilance sessions. Her energetic teaching style made complex topics easy to understand. She encouraged interactive discussions and always welcomed questions. Her patience and dedication greatly enhanced our learning. Mrs. Mayuri is truly an inspiring and impactful educator.

Malvika Edina Dorothy. C

Ms. Mayuri Roy is an excellent trainer who is highly knowledgable in PV and Clinical Research industry. I am inspired by her energy, knowledge, interaction and the love for teaching. I wish her all the very best for her future endeavours.

Lalitha S

Mayuri Ma'am's sessions provided valuable insights into drug safety and regulatory practices. She made complex topics simple and easy to understand. Real-world case studies made learning practical and engaging. Her passion and dedication created an excellent learning environment. I highly recommend her for anyone pursuing pharmacovigilance.
